1300 865 207 or go to **braemar.com.au**

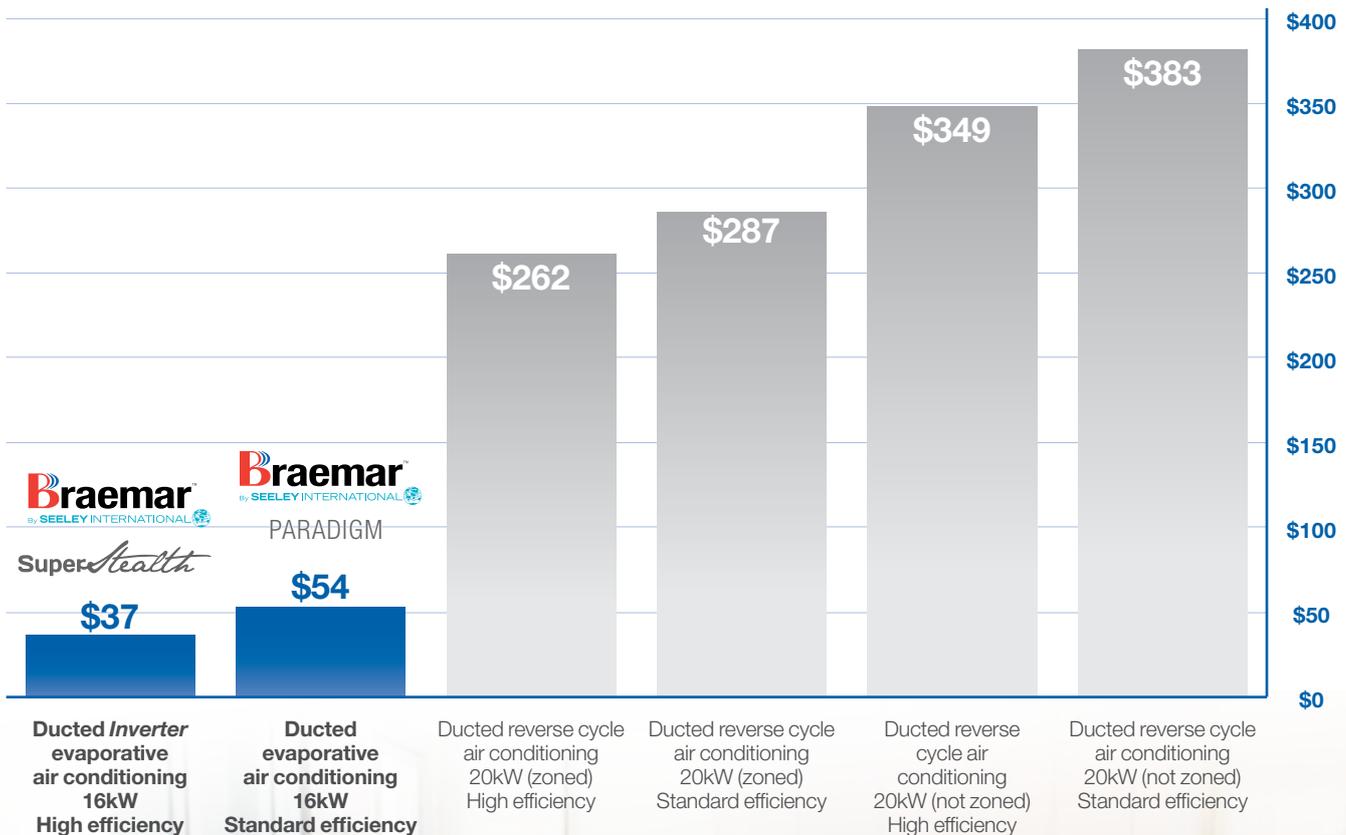

*Seeley International's calculation, using publicly available data, compared to a 20kW standard efficiency (not zoned) ducted reverse cycle air conditioner system for a cooled area of 166m². Assumes 300 hours usage, a 60% duty cycle for air conditioners, and an electricity tariff of 28 cents/kWh. Note that evaporative coolers also use some water. #The 7 year comprehensive warranty is available exclusively (i.e. only) from Seeley International participating dealers. The warranty has terms and conditions, including the requirement for servicing of the product in accordance with the owner's manual. In the fourth year the service must be performed by Seeley International or its appointed nominee. ⁹Seeley International's calculations, based on publicly available data (2008). CO₂ emissions based on 1.09 kg CO₂ e/kWhr electricity purchased from grid for Victoria. Data sourced from Part 6 of Schedule 1 to the National Greenhouse and Energy Reporting (Measurement) Determination 2008 (Compilation No. 7, dated 1 July 2016). [^]Through participating dealers only, for a limited period. See braemar.com.au for full terms and conditions. **Information correct at time of printing. 14/09/2017.**
